CURRICULUM VITAE

Giuseppe Fragale

DATE OF BIRTH: 14 October 1994, Cuneo, Italy **CITIZENSHIP**: Italian
WORK ADDRESS: FIRC institute of molecular oncology (IFOM), via adamello 16, 20139 Milan, Italy
TEL: +39 3349449695
E-MAIL: giuseppe.fragale@ifom.eu. giuseppe.fragale94@gmail.com

EDUCATION

2019-2024 | PhD in Systems Medicine - Molecular Oncology, University of Milan / European School of Molecular Medicine, Milan
2015-2018 | MSc in Molecular Biotechnology, 110/110 cum laude, University of Turin, Turin
2011-2015 | BSc in Biotechnology, 105/110, University of Turin, Turin

RESEARCH EXPERIENCE

Mar 2026-Present | Postdoctoral Fellow, FIRC Institute of Molecular Oncology (IFOM), Milan - In collaboration with Marco Cosentino Lagomarsino, using fluorescent reporters in yeast to study translational elongation.
Apr 2024-Mar 2026 | Postdoctoral Fellow, FIRC Institute of Molecular Oncology (IFOM), Milan - AIRC-funded research with Kristina Havas and Marco Foiani on how mechanical compression rewires translation, redox signaling and stress adaptation in tumor cells.
Sep 2019-Mar 2024 | PhD Researcher, University of Milan / IFOM, Milan - PhD research with Kristina Havas on oncogenic rewiring of cell-density homeostasis and translational responses to mechanical stress in cancer.
Mar-Sep 2019 | Data Manager and Study Coordinator, AOU Citta della Salute e della Scienza, Turin - Supported clinical research in multiple myeloma in Prof. Mario Boccadoro's group.
Feb-Apr 2019 | Molecular Diagnostics Trainee, AOU San Luigi Gonzaga, Orbassano - Performed molecular diagnostic activities in the Medicine and Molecular Oncology Laboratory.
Oct 2018-Jan 2019 | Research Fellow, Molecular Biotechnology Center, University of Turin, Turin - Investigated tumor-cell migration and extracellular Morgana in breast cancer (Mara Brancaccio's Lab).
2014-2018 | Bachelor's and Master's Research Intern, Molecular Biotechnology Center, University of Turin, Turin - Studied tumor-associated macrophages, extracellular Morgana and breast-cancer cell migration (Mara Brancaccio's Lab).

TECHNICAL SKILLS AND COMPETENCES

Cell and molecular biology: mammalian cell culture; transfection and viral infection; DNA/RNA extraction, RT-PCR and electrophoresis; protein extraction, SDS-PAGE, Western blotting and immunoprecipitation; translation assays; immunofluorescence, confocal microscopy, histology and IHC; migration assays; bacterial recombinant protein expression. **In vivo:** mouse handling, genotyping, organ collection, injections, oral gavage and behavioral tests. **Analysis:** GraphPad Prism, ImageJ/Fiji, Image Lab, Leica LAS X, Zeiss AxioVision, Adobe Illustrator and Microsoft Office. **Languages:** English C1; Italian native.

AWARDS

AIRC Postdoctoral Fellowship in Mechanobiology, 2024-present.
